OnSolve Global Travel Risk Management

Protect Your Employees Wherever They Are

Today's world is unpredictable, and travel is increasingly susceptible to the effects of pandemics, severe weather, acts of terrorism, active assailants and other threats. As an employer, it is your responsibility to protect your people every step of the way.

When a critical event occurs, having visibility into the event and the tools to reach your travelers is essential, so planning and processes should be in place well before any crisis occurs. The stakes are high: the consequences of being ill-prepared can come in the form of human lives, financial loss, legal consequences and damage to your reputation.

What is Travel Risk Management?

Travel risk management is more than the right thing to do — it's an essential component of corporate responsibility. As with organizational risk management, being uninformed or unprepared isn't an acceptable defense.

A robust protection program empowers multiple interdependent departments and functions. The accountability test is "foreseeable risk" of harm that could come to employees on company time.

A comprehensive travel risk management program must address **risk**, **response** and **support**:

Risk

Anticipating and preparing for risk requires real-time physical threat intelligence weighed against your organization's unique footprint of travel plans, events, offices and logistics.

Response

Crisis response plans must include clear processes for locating, communicating with, assisting and potentially extracting your people — across borders, time zones and governments.

Support

Ensure your travelers have access to 24/7 support so they feel comfortable knowing they can always contact someone in a crisis.

Your Partner in a Crisis

The unified OnSolve Platform hosts a suite of products to support organizations through every step of a critical event, from preparation to detection to activating response teams and recovery.

Prepare

with risk assessments, historical trends and statistics before anything even happens.

Detect

threats early with accurate, focused alerts and impact assessments.

Activate

teams by disseminating information needed to mobilize quickly.

Recover

faster with the right technology to better understand, handle and mitigate risk.

OnSolve Named a Leader in the Forrester Wave™: Critical Event Management Platforms, Q4 2023

Fast. Targeted. Trusted.

Travel Risk Management is powered by OnSolve Risk Intelligence, using analyst-vetted AI to provide intelligence that helps protect traveling and remote employees.

Know What's Happening Sooner

OnSolve AI combines the speed of automated detection with human validation to streamline data processing and filter through vast amounts of information. As a result, it delivers timely, credible insights, accelerates risk discovery, and protects travelers.

Monitor and Communicate with Confidence

Proactively equip employees with tracking and emergency alerts, map safe-zone parameters, and give them control over privacy levels. Travel safety alerts can help them understand how their travel will be impacted.

Respond Without Hesitation

Quickly activate response plans to locate, alert, and assist employees with data to support decisions about additional protection measures, such as GPS tracking and mobile device panic buttons.
