

# OnSolve Mass Notification

Deliver Time-Sensitive Alerts Quickly

In today's dynamic risk landscape, organizations face evolving threats that can disrupt operations and jeopardize employee safety. Threats from geopolitical instability to extreme weather have far-reaching and cascading impacts — expected and unexpected. Leaders must invest in technology that helps effectively respond to these threats and ensure timely and targeted communication.

OnSolve® Mass Notification provides organizations with the ability to inform and protect your people during both routine operations and crisis situations. Our intuitive, cloud-based software enables proactive outreach, fosters collaboration and enhances operational resilience, providing peace of mind in the face of escalating threats.

## The OnSolve Difference

Organizations require more than ease of use from their software vendors — you need scalable solutions that can evolve alongside growing needs. OnSolve delivers unmatched industry expertise with billions of alerts distributed across 190 countries annually in over 29 languages. As your organization grows, OnSolve remains a trusted partner, providing adaptable functionality to mitigate the impact of critical events, inform and protect people and enhance overall resilience.

**Connect quickly**  
by launching alerts in seconds from wherever you are located via web, email, text or mobile app to a recipient's preferred device.

**Target individuals, groups or offices** (even specific floors) by using location-based geo-fencing that also maintains recipient privacy.

**Integrate with internal systems** and connect OnSolve with your business ecosystem with one of the only providers in the industry offering an open platform.
