

OnSolve Incident Management

Take command and control from anywhere

Global incidents are occurring at an unprecedented pace, creating vulnerabilities and risks for organizations of all sizes. The safety and security of your people, places, property, reputation and supply chains can be threatened unexpectedly.

To overcome today's critical events, you need incident management capabilities so you can mobilize employees quickly through an easy-to-use interface and ensure procedures are followed by securely sharing policies and procedures.

What is OnSolve® Incident Management?

OnSolve Incident Management is a solution that achieves rapid recovery from any disruption by activating response teams and communications plans to ensure the right escalation process is followed through our interactive interface.

OnSolve has reinvented the activation of crisis team and communications plans with revolutionary simplicity, wherever you are and whenever you need it. OnSolve Incident Management provides the capabilities you need to ease high-stress environments for users with an easy-to-navigate workflow. Now you can maintain compliance while identifying gaps in your communications plans and areas for improvement.

OnSolve Incident Management is ideal for:

Emergency
Response

Incident
Response

Physical Security and
Security Operations

Business
Continuity

Compliance and
Control

Training and
Exercise

Why OnSolve

Now you can provide your organization with real-time command and control, ensuring your reaction is instant and operations can return to normal as quickly as possible.

Speed

Leverage real-time command and control from anywhere to mobilize response teams instantly. Your team stays synchronized across all devices.

Relevance

When every minute counts, drive a faster return to normal operations through tactical business communications plans accessible on our interactive interface.

Usability

Post-action reporting delivers accurate tracking, accountability and safety, as well as insights for future improvement. Ensure consistent compliance and performance for standard communications procedures and everyday emergencies.

Activate. Collaborate. Communicate.

What's the cost of ineffective incident management?

According to NOAA¹, there were more financially impacting (\$B) natural events than any other year on record since 1980. In 2022 (as of July 11), there have been 9 weather/climate disaster events with losses exceeding \$1 billion each to affect the United States.

With OnSolve Incident Management, you can mobilize teams and activate communications plans for rapid and effective recovery from any disruption.

- Access tactical business communications plans anywhere from our easy-to-use interface.
- Enable employees to connect on a secure conference bridge with linked messaging capabilities for organizational alignment.
- Deliver customized incident and communications plans for appropriate action.
- Utilize post-action reporting for accurate tracking, accountability and safety, as well as insights for future improvement.
