

# The OnSolve Platform

Discover a Better Way to Identify Risks and Communicate in Real Time

No company is immune to critical events. It's not a matter of if, but when, such an event or physical threat will occur.

To mitigate the impact, every organization and its leadership team must provide the right information to the right people at the right time.

The OnSolve® Platform for Critical Event Management empowers security, risk and business continuity leaders to identify, prepare and execute a fast and effective response.

## The OnSolve Difference

Our Platform is the industry's most comprehensive solution for employee safety, risk mitigation and operational resilience. We combine industry-leading capabilities into one easy-to-use interface that strengthens your organization's ability to identify adverse events, analyze risks and respond throughout the continuity and resiliency lifecycle.

### AI-powered Risk Intelligence

Leverage powerful AI and analyst-vetted data to detect, manage and monitor critical events.

### Intuitive Critical Communications

Send notifications seamlessly at a moment's notice and keep people updated as events unfold.

### Efficient Incident Management

Mobilize crisis response from any device to assess situations, make informed decisions and act with confidence.

# Why OnSolve
